ACCIDENT ON TORPEDO BOAT

Nine Men Instantly Killed and Two Injured as the Result of an Explosion.

Laurens, France, Feb. 8.—As a result of an explosion on board a torpedo boat of the French navy today, nine men were killed and two injured. The boat, named "Le Torpilleur," was on a short test run, and at the time of the accident she was undergoing, prior to being placed in command her full power. The trial was successful, but as the boat was recouping her anchorages a safety tube forming part of the evacuation apparatus burst and a mass of flame was forced into the stockhold where the engineers and quartermaster and nine stokers were at work. The engineers and stokers were instantly killed, and the two injured were practically reduced to cinders. The stoker was severely injured. The reason for the accident is that the automatic door that should have closed to prevent the return of the flames to the stockhold did not work.
